

# HEAVY-DUTY, DIRECT-DRIVE FLANGE-MOUNT MIXERS

## HEAVY-DUTY, DIRECT-DRIVE, FLANGE-MOUNT MIXERS

Seal rated to withstand 150 PSI pressure to maintain pressure within the tank

**Engineered for mixing large volumes of medium to heavy materials.**

- ANSI standard flange sizes for convenient mounting
- Seal rated to withstand 150 PSI pressure to maintain pressure within the mixing tank
- Bearing supported for maximum shaft support
- 316 stainless wetted parts and 304 stainless mounting flange. 316 stainless mounting flange available upon request
- 3-blade hydrofoil for efficient mixing
- Air and electric models available
- TEFC and Explosion-Proof models available
- Variable-speed drive option available for all electric models
- Other gear ratios available upon request
- All models 3-phase power: 1 phase and 115VAC models available upon request

**NEW**

MODEL	DESCRIPTION	RPM	HP	TYPE	PHASE	VOLTAGE	ANSI MOUNTING FLANGE	SHAFT	HYROFOIL	PRICE
