

INDCO and Caframo New Product *1540 Crossover Lab Mixer*

THE CROSSOVER MIXER COMBINES INDUSTRIAL CONTROL FEATURES AND POWER CREATING A PORTABLE MIXER PERFECTLY SUITED FOR LAB OR SMALL PRODUCTION BATCHES.

FEATURES:

- Pairs the power and torque of a 1/2 HP motor with a graphic user interface
- Resume on power up and communication ports simplify automation
- Data logging to a memory stick provides efficient repeatability and validation
- Portable, light weight and durable enough for continuous use
- Customization of your process with timers and alarms
- GUI resistive touch screen with speed control

**Caframo 1540 attached to INDCO's
PS480 Manual Lift Stand**

**SEVERAL MOUNTING OPTIONS TO MEET THE
NEEDS OF EVERY APPLICATION**

Plate mount provides stable mounting to a horizontal stand or structure.

C-Clamp set attaches the mixer to any vertical surface enabling the mixer to be angled within the vessel.

Attach the c-clamp to INDCO's manual lift stand with casters to make mixing in multiple vessels seamless.

TECHNICAL DETAILS

Input Power -- 120 volts, 60 Hz

Motor -- Brushless DC

Weight -- 27 lbs

Display -- Graphic user interface, resistive touch screen

Mounting -- Square bolt pattern, 87.6mm

Impeller Adjustment -- Through shaft

Impeller Attachment -- Keyed chuck 420 SS, accepts shafts up to 15.9mm

Communication and Data Logging -- USB, DB9, and isolated analog 4-20mA

Includes -- Mixer, chuck, chuck key, chuck shaft guard, mounting hardware and power cord

Approvals -- CSA listed to US and Canada standards

Warranty -- 3 years

APPLICATIONS

*Media Prep

*Pharma

*Wastewater flocculation

*Industrial pilot plants

*Biological, diagnostic products
